GitHub: <https://github.com/ChristopherZinati>

Current Computer Science student looking to gain experience in the software industry

SKILLS

C, C++, Python, Java, Javascript, Godot Engine/GDScript, proficient AI user

PROJECTS AND CONTRIBUTIONS

All source codes are on GitHub

LC-3 Virtual Machine & Operating Systems Concepts

A small virtual machine written in C that simulates LC-3 architecture. A part of a bigger repository that showcases certain operating system concepts. Source code is on github.

Spotify Clone

A web app created using the react framework and utilizing the spotify API for dynamically loading songs. Has true-to-life CSS styling and animations. Source code is on github.

CSUF Campus Navigator

The final group project for an algorithms class. Written in Javascript and HTML. My contributions were mostly in the backend for the actual navigation functionality. Source code is on github.

MemeFight Tactics

A desktop game developed over the course of 9 months under the guidance of the computer science department and in collaboration with a small group. Required intensive engineering and artistic creativity. Technologies utilized are the Godot scripting language/engine.

WORK EXPERIENCE

Ralphs, Torrance, CA — Courtesy Clerk

November 2020 - October 2021

Greeting and engaging with customers while

ensuring a clean working environment. Developed strong problem-solving skills by assisting customers. Left the position to pursue full-time education

McDonald's, Torrance, CA - Crew Member

June 2024 - November 2024

Taking orders and keeping the back of the house clean and fully stocked. Moved to the front-of-house where I served orders and resolved customer complaints in prompt fashion. Developed the skills to work fast and multitask. Left position due to health issues.
